

Your Ikigai Blueprint

The intersection of what you love, what you're good at, what the world needs, and what you can be rewarded for.

"My purpose is to touch lives — starting with my family, expanding to my team, and eventually millions of Filipinos — by creating pathways to dignity through education, housing, and mentorship. YOUR CORE BELIEFS (YOUR FOUNDATION)

- ✓ I can do this. I am healthy, strong, and guided by the Almighty.
- ✓ The universe conspires with me to succeed because when I succeed, others succeed.
- ✓ Daily action is non-negotiable. Small, consistent steps compound into transformation.
- ✓ My success is inseparable from my community's success.
- ✓ I am never too late. My journey started when it was meant to.
- ✓ Generosity at scale begins with financial stability and systems.

YOUR NEXT STEPS (IN PRIORITY ORDER)

- Deepen your real estate expertise — economy, market trends, investment opportunities

- Build clean systems: database, listings, lead tracking, follow-ups
- Hire and train your first team member — start with one person
- Position yourself as a consultant and wealth advisor, not just a salesperson
- In parallel: connect with existing educational institutions for scholarship partnerships
- Set a timeline for your first legacy project
- Track progress quarterly against your 2-year leveling-up goal

Potential Pitfalls to Watch

PITFALL 1: OVERGIVING IN THE LEVELING-UP PHASE

You have a soft heart and bend over backwards to help. During the next 2 years, you need to be ruthless about protecting your time and energy for the three pillars. Say no to requests that don't serve your leveling up. Generosity at scale happens after financial freedom, not before.

PITFALL 2: WAITING FOR PERFECT CONDITIONS

You mentioned family health concerns and wanting to avoid major obstacles. That's wise, but watch for perfectionism disguised as caution. You don't need all conditions to be perfect to start. You need to start imperfectly.

PITFALL 3: LOSING FOCUS BETWEEN TWO WORLDS

You're currently "building my pocket" while wanting to touch lives now. This creates tension. Remember: years 1-2 are about financial security. Years 3-5 are about institutional legacy. Trying to do both simultaneously will burnout you. Pick the phase you're in and commit.

PITFALL 4: UNDERESTIMATING THE SYSTEMS WORK

You mentioned systems as Pillar 3, but it's not optional—it's foundational. Without clean operations, you can't scale. Without scaling, you can't reach ₱5M passive income. Don't rush this. The work here directly enables everything else.
